Microprocessor 8085 - Practical Manual

College Buddy - free study resource sample file

Experiment 1: Addition of two 8-bit numbers

Program: LDA, MOV, ADD, STA, HLT. Expected output and flowchart.

Experiment 2: Largest number in an array

Program using memory pointers, comparison and loop instructions.

Experiment 3: Block data transfer

Move a block of data from one memory location to another.

Viva questions: addressing modes, instruction set and interrupts.
